

A Perfect Performance of My Story

When you read aloud, you must...

- Use a **presentation voice**, which is a bit louder than your usual talking voice, so the audience can hear you.

How will you make sure everyone can hear you?

- Change the **tone** of your voice, so it is sometimes loud and sometimes quiet.

Which words will you emphasise?

- **Speak clearly**, so that people hear each word.

Which words will you need to practise saying?

- **Look at the faces of the audience** and into their eyes, so that everyone will be interested in you!

How can you catch the attention of the audience?
