

Looking closely at photographs

Look carefully at the two photographs your teacher has given you. One is a photograph of a baby and the other is a photograph of that baby as an older person.

How has the person changed as they have got older?

What things have stayed the same?

How do you think you have changed from when you were a baby?

What will you be like when you are an adult?

Looking at photographs

Look carefully at the two photographs your teacher has given you. One is a photograph of a baby and the other is a photograph of that baby as an older person.

1. How has the person changed as they have got older?

2. What things have stayed the same?

3. How do you think you have changed from when you were a baby?

4. What will you be like when you are an adult?
