

Making sensory boards and bottles

Letter from the playgroup

Dear children,

We have heard that you are learning all about senses! We are also thinking about sounds and how we hear them. Would it be possible for you to make us a Sound Challenge? We would love it if you could!

Please can you make some bottles with different things inside? The outside of the bottles need to be covered up so we can't peek inside and guess by using our eyes! We just need to be able to listen to the sounds of the things inside and guess what they are from the noise they make when we shake them.

Thank you for your help!

The Sound Challenge

You will need:

A clean, empty plastic bottle with a lid

Strong tape

Something to put inside the bottle that makes a noise when you shake it

Wrapping paper or sticky backed plastic to wrap around the bottle
