

Primary Science Year 1 Assignment 05

SUBJECT	Primary Science Year 1
ASSIGNMENT	05
STUDENT NAME	

INSTRUCTIONS:

For your child's first science assignment for Part 2, your tutor would love to see some of the work they have been doing:

- In Step 13 Lesson 1 and Step 15 Lesson 1 and 2, there have been prompts to film and/or record your child at various points in their learning, as options to submit for Assignment 5. Choose one clip to submit to your tutor.
 - The video/recording you submit should show your child's learning process: it does not need to be 'formal' or 'polished'!
 - Alternatively, you may wish to film your child talking about the key points of their learning at the end of the three steps and submit this.
-

Feedback from your child's tutor:

The tutor will give you feedback on how well your child shows their understanding of materials and their properties, including magnets and metals. Your tutor will also comment on the effort your child has made in their learning, where evidenced.

TOTAL FOR ASSIGNMENT 10 MARKS
