

Primary Science Year 1 Assignment 07

SUBJECT	Primary Science Year 1
ASSIGNMENT	07
STUDENT NAME	

INSTRUCTIONS:

Your tutor would love to see some of the learning your child has been doing during their work on freezing and melting ice.

Film your student talking about what they found out in their investigation in Step 21 Lesson 2. They might like to use their **Ice investigation Sheet** to help.

You could ask your student:

- 'What happened during the investigation?'
- 'Were you surprised by anything you saw happen?'
- 'If you did the investigation again, is there anything you would change?'

Send a video clip of your child explaining what they found out during their ice experiment in Step 21 Lesson 2.

Feedback from your child's tutor:

The tutor will give you feedback on how well your child shows their understanding of freezing and melting ice; their use of key vocabulary, and how they attempted the melting and freezing activities.

TOTAL FOR ASSIGNMENT 10 MARKS
