

# 4-Figure Grid References

There are two main types of grid references:

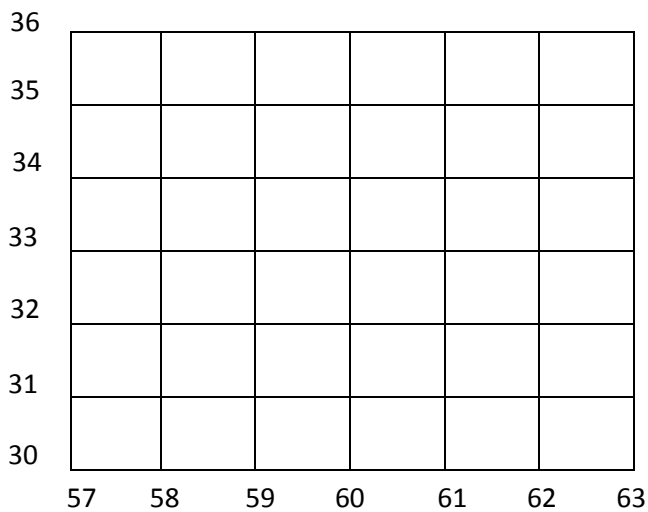

- **Four-Figure** – This indicates a single km square on an OS map
- **Six-Figure** – This indicates a point within a square

To find these grid-references you must read along the corridor and then up the stairs.

This gives you the bottom left corner of the grid square/point you're trying to find.

**Task 1:** Add the letters in the correct place on the grid below:

A – 5833

B – 6131

C – 5730

D – 5931

E – 6132

**Task 2:** Write the four-figure grid references for the squares labelled below:

- \_\_\_\_\_ ☺
- \_\_\_\_\_ ♥
- \_\_\_\_\_ ⚡
- \_\_\_\_\_ ☀
- \_\_\_\_\_ ☆
