

Settlement Patterns

There are 3 different types of settlement patterns that we have learnt about:

- Linear
- Dispersed
- Nucleated

On the sketch below write the correct name of the type of settlement next to letters A, B & C.

Match the correct terms to their definitions and accompanying maps.

Settlements where few buildings are spread over a large area.

DISPERSED

Settlements centred around a focus point, such as a bridge or major crossroads.

NUCLEATED

A settlement based in a narrow band along a road or other feature.

LINEAR
